

THURSDAY, April 7, 2016

8:00-9:00

Registration for the FOODINTEGRITY 2016 workshops

SESSIONS 6 & 8, in parallel

9:00-10:30
Prague B
hall

SESSION 8: Workshop on Industrial perspective for strategies applied for assuring food authenticity (part I)

How to improve protection from food frauds and adulterations

Moderator: Michele Suman, Barilla, Parma, Italy

9:00-9:10

L36

OVERVIEW OF CURRENT RESEARCH AND PRACTICAL OUTCOMES OF FOODINTEGRITY PROJECT

Michele Suman, Barilla SpA - Advanced Laboratory Research, Parma, Italy

9:10-9:20

L37

USING THE FOODINTEGRITY NETWORK & THE FOOD INTEGRITY KNOWLEDGE BASE

Michele Lees, Eurofins Analytics France, Nantes, France

9:20-9:30

L38

RAPID METHODS PERSPECTIVES (FOCUS ON THE SPIRIT DRINK SECTOR)

Shona Glancy, The Scotch Whisky Research Institute, Edinburgh, UK

9:30-9:40

L39

FOOD AUTHENTICITY: A RETAIL COMPANY PERSPECTIVE

Martino Barbanera, Coop Italia, Casalecchio di Reno, Italy

9:40-9:50

L40

1H-NMR NON-TARGETED DETECTION OF ADULTERANTS IN VEGETABLE OIL

James Donarski, Fera Science Ltd, York, UK

9:50-10:00

L41

SPECTROSCOPIC TECHNOLOGIES AND APPLICATIONS FOR AUTHENTICATION & ANTI-COUNTERFEITING

Neville Davies, Ocean Optics, Duiven, the Netherlands

10:00-10:10

L42

INDUSTRIAL SELF-CONTROL IN THE FRUIT JUICE INDUSTRY: A MODEL FOR OTHER FOOD INDUSTRY SECTORS

Aintzane Esturo, SGF International, Nieder-Olm, Germany

10:10-10:20

L43

HONEY IDENTITY: NEW APPROACHES TO THE BOTANICAL ORIGIN OF HONEY BY NEXT GENERATION SEQUENCING

Maria Teresa Barreto Crespo, iBET, Oeiras, Portugal

10:20-10:30

L44

THE USE OF STABLE ISOTOPES FOR MONITORING OF PRODUCTS CLAIMING REGIONAL ORIGIN. A PROOF OF CONCEPT

Markus Boner, Agroisolab GmbH, Jülich, Germany

10:30-11:00

Conference
area

Coffee Break / Exhibition / Poster session

SESSIONS 7 & 9, in parallel

11:00-13:00

Prague B
hall**SESSION 9: Workshop on
Industrial perspective for strategies applied for assuring food
authenticity (part II)**

How to improve protection from food frauds and adulterations

Moderator: Michele Suman, Barilla, Parma, Italy

11:00-13:00

An interactive team working exercise among the participants to address future scenarios related to:

- (i) Fragmentation of the chains,
- (ii) Effective rapid screening approaches,
- (iii) Confirmatory analytical strategies,
- (iv) Assessments and prevention models

13:00-14:00

Hotel restaurant Loreta

Lunch

Workshop: Industrial Applications for Assuring Food Authenticity (HOW TO IMPROVE PROTECTION FROM FOOD FRAUDS AND ADULTERATIONS)

Workshop Aims and Objectives

European food is of prime importance to the European Agri-food economy.

The authenticity of European food and the integrity of supply chains is under constant threat from fraudulent activities.

The topic of assuring the integrity of the food chain brings together producers, distributors, processors, retailers, regulators, researchers, enforcers and consumers.

The present workshop will be an opportunity for all these stakeholders to raise their awareness of food authenticity issues and get together in order to achieve the following objectives:

- i. Share common relevant issues combined with best practices, enlarging the existing network and boosting exchange and collaboration
- ii. Allow open and constructive discussions on how current research is expected to develop practical mitigation solutions for companies to use to protect themselves from food fraud
- iii. Review all the relevant activities and tools that FoodIntegrity project has already made available and/or is developing for the industry (e.g. FI Network, FI Knowledge Base,...)

Workshop Format

The first part of the workshop will be devoted to have a series of short talks that will consider the 'state of the art' achieved from the FoodIntegrity project on the industrial side, together with stimulus and good practices provided directly from industrial player presenters from different points of the food chain.

At the end of each presentation, a moderator of the session will assist in identifying the knowledge gaps and stimulate discussion as to how these gaps might be addressed.

The second part of the workshop will be dedicated to an interactive team working exercise among the participants to address future scenarios related to: (i) fragmentation of the chains, (ii) effective rapid screening approaches, (iii) confirmatory analytical strategies, (iv) assessments and prevention models.
